Education

*Bachelor of Science, Computer Science and Engineering
Minor in Mathematics*

*Fall 2023 - Spring 2027
University of Nevada, Reno*

- Relevant coursework: Algorithms, Full Stack WebDev, Parallel Computing, Databases, Operation Systems

Projects

MPI Temperature Analyzer: C++, MPI, OpenMPI, Chrono, File I/O

- Built a distributed temperature-processing application using MPI for multi-node data partitioning and aggregation.
- Implemented custom MPI struct datatypes, dynamic Scatterv/Gatherv distribution, and broadcast synchronization.
- Added OpenMP parallel loops for multithreaded summation and category classification to improve performance.

Game Recommender Quiz: JavaScript, React, TypeScript, Tailwind CSS, Next.js, Vercel

- Created a web quiz game recommendation app in TypeScript and deployed using Vercel.
- Implemented dynamic routing to match user preferences with curated game suggestions.
- Used RAWG API to curate responses.

Boy Scouts of America Eagle Scout Project

- Designed and constructed two benches for the benefit of a middle school and gardening club.
- Budgeted and fundraised project independently. Organized and engaged volunteer team to assist with construction.
- Successfully presented the project to the BSA Review Board and was awarded the Eagle Scout rank in 2023.

Experience

Lead Lifeguard

Summers 2021 - 2025

City Of Fremont Aqua Adventure - Fremont, California

- Promoted to Lead Lifeguard in 2023: Trained and managed my team of 80 on safety and customer relations
- Monitored over 1200 patrons while identifying safety concerns and ensuring rule compliance
- Practiced and performed first aid while staying calm in high stress situations and emergencies
- Learned and applied detailed safety procedures with regard for customers and colleagues
- CPR & First Aid Certified Since 2021

Memberships

Theta Tau Professional Co-ed Engineering Fraternity

Spring 25 - Present

Rho Delta Chapter

- Collaborate with members to organize professional development workshops and engineering outreach events
- Strengthen leadership, teamwork, and communication skills through chapter meetings and service coordination
- Contribute to community service initiatives such as Trick or Can, park beautification projects, and Letters to Veterans

Programming Languages & Frameworks: C, C++, Java, JavaScript, HTML, Python, React, TypeScript, Tailwind CSS, Next.js, Vercel, AWT, Swing, SQL

Skills: Programming, Microsoft Office Suite, Google Suite, Leadership, Team Management, Problem Solving, Written & Verbal Communication, Emotional Intelligence (EQ) and Soft Skills Training
